Solicitation Number:	RFP 8100 JTH3001
Description:	Aviation Access Control & Identity Management Systems
Summary:	Aviation Access Control & Identity Management Systems. The new Access Control System will improve the security posture of the Airport through strong and sustainable integration with the Genetec Video Management (VMS) and Perimeter Intrusion Detection Systems (PIDS), while providing AUS a reliable and intuitive system. The Identity Management System will enhance the efficiency of the Badging Office by providing secure integration between disparate Badging Office systems, through the reduction of duplicate manual data entry, and by moving towards a paperless, structured workflow approach.
