Description:	Project Connect - Water/Wastewater Utility Support
Summary:	Project Connect is a comprehensive transit plan designed to enhance public transportation in Austin. It includes a new rail system, including a new downtown transit tunnel. Project Connect involves multiple stakeholder agencies within City of Austin and partner agencies. There are numerous subsurface conflicts with Austin Water utilities along the proposed light rail alignment, and some are considered as "major" (water or reclaim water transmission lines 24 inches diameter or greater, and wastewater conveyance lines 36 inches diameter or greater). Several priority conflicts have been initially identified by Austin Water that require additional consideration and evaluation. This project will provide the necessary engineering support to help ensure Austin Water's interests are reflected and adequately supported.
Estimated Amount for Solicitation:	

Subcontracting Goals

African American	1.90%
Hispanic American	9.00%
Native/Asian American	4.90%
WBE	15.80%
