Details

Basic Information	
Type:	Competitive Sealed Proposal (CSP)
Status:	Closed Solicitation expired on 12/01/2022 at 02:00 PM.
Solicitation Number:	CSP 6100 CLMB340
Description:	Austin Energy Chilled Water ROW Construction Services
Summary:	Solicitation for a multi-vendor contract for chilled water construction in the right of way. This includes: provision of pipe, piping hot taps, excavation, tunneling, or boring as required for pipe installation, along with all required casing spacers, tunnel supports, tunnel safety provisions, tunnel dewatering, traffic control provisions including barricades, signage, and safety fencing, valve boxes with traffic rated lids, valve operator stem extensions; butterfly valves and gear operators; air elimination assemblies to include buried traffic-rated enclosure and lid, 2 riser piping, concrete base, shutoff ball valves, automatic air release devices, and associated piping tees and fittings; sediment containment, tree protection, CLSM, pea gravel and grouting, pipe wall penetration seals; assisting Owner's chemical testing company; soil compaction; street, curb, and sidewalk repair, communications manholes, with inner duct, raceways, and hooks for communications fiber optic cabling, installation of fiber optic cabling, removal of excavated materials and spoils; along with associated appurtenances and services. Work under terms of this solicitation will be awarded under an CSP contract agreement. Project locations and extent of project work will be determined by Owner and set forth in Owner-provided drawings on an individual basis at such time as an Austin Energy (AE)-Customer agreement is reached for provision of chilled water to Customer by AE. A separate contract for each individual project will be awarded under the terms of these specifications .
Estimated Amount for Solicitation:	\$10,000,000.00
