Solicitation Number:	IFB 6100 CLMC998
Description:	Wastewater Renewal Program - Manholes IDIQ (2023-2027)
Summary:	The Work consists of an indefinite delivery/indefinite quantity project that includes the rehabilitation of existing wastewater manholes complete and in place. Quantities will vary as specific work is identified by COA, AW, and other entities. It is anticipated that various sized wastewater manhole rings and covers will be replaced, Wastewater manholes will have upper cone and ring work, wastewater manhole interiors will have new lining installed using products and materials listed in the Austin Water Utility's Standard Products List. Wastewater manhole rehabilitation processes and methods may include the work necessary to install new Wastewater manhole rings and covers, install new bolted wastewater manhole rings and covers, adjust existing misaligned wastewater manhole rings and covers, adjust grade rings of existing wastewater manholes, apply chemical grout to stop active leaks to wastewater manholes, apply Structural Linings (SPL WW-511A) or Cementitious Linings (SPL WW-511B) to wastewater manhole interior walls and benches, apply Organic Linings (SPL WW-511) to wastewater manhole interior walls, benches and/or inverts, repair/rebuild existing wastewater manhole benches and/or inverts, and plug abandoned wastewater lines, abandon existing manholes, install new manholes, as directed by the Owner's Representative. The Contractor is responsible for environmental controls, traffic control, removal and disposal of waste, and to make all final permanent pavement repairs around manholes and restore all sites to their original or better conditions.
Estimated Amount for Solicitation:	\$3,000,000.00
