

**ADDENDUM  
PURCHASING OFFICE  
CITY OF AUSTIN, TEXAS**

---

**Solicitation: RFP 1100 EAL3010    Addendum No: 2    Date of Addendum: January 15, 2020**

---

This addendum is to incorporate the following changes to the above referenced solicitation:

**I. Clarification:**

- I.1    Section 0500, 2- Purpose has been changed to remove the following language:

~~Pre-planning services under this Contract include assigning work to and performing quality audits of third parties under contract with Austin Energy, therefore the City will not consider the Contractor or any companies with a financial relationship to the Contractor, for award of VM (i.e. trim) contracts on the Austin Energy Distribution electrical facilities, for the term of the Contract. This exclusion is in place to prevent an actual or perceived conflict of interest and ensure high quality outcomes of Austin Energy's Vegetation Management Program, including public safety and electric reliability. —~~

- I.2    The City replaces its previous response to question I.5, published on Addendum No. 1:

Question I.5: Section 0500, 2.- Purpose states that “the City will not consider the Contractor or any companies with a financial relationship to the Contractor, for award of vegetation management contracts on the Austin Energy Distribution electrical facilities”. Does this include the Street Light contract?

**II. Question:**

- II.1    **Section 0500, 2.- Purpose states that “the City will not consider the Contractor or any companies with a financial relationship to the Contractor, for award of vegetation management contracts on the Austin Energy Distribution electrical facilities”. Does this include the Street Light contract?**

Per Clarification I.1 above, this section has been removed from Section 0500, Scope of Work.

- II.2    **Does the City consider separate entities of a company as a financial relationship?**

Per Clarification I.1 above, this section has been removed from Section 0500, Scope of Work.

- II.3    **Per Section 0500, 2, B, vi. Vegetation Suppression: Integrated VM using a directed, herbicide application to control vegetation for maintenance of the Owner's electrical system. Does the Contractor need to provide herbicide and spray equipment?**

No, the pre-planner will not be performing these services, but it may be included in their planning process.

**III. Additional Information:**

- III.1 The attendance log from the Pre-Proposal Meeting held on January 7, 2020 is attached as it was inadvertently left off Amendment 1.
- III.2 Section 0500 has been replaced with Version 1.2.

**IV. Extension:**

- IV.1 The proposal due date and time is hereby extended until Tuesday, January 28, 2020 at 2:00pm CST.
- IV.2 The proposal opening date and time is hereby extended until Tuesday, January 28, 2020 at 3:00pm CST.

**V. ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
